**Explanation**

Information was obtained from spring parent interviews to identify a focal child care setting for each study child. The focal setting is defined as the child care setting where the child spent a minimum of 5 hours between the hours of 8 a.m. and 6 p.m. Monday through Friday.

Extensive reconciliation with other instruments (teacher survey, other care provider interview, and TCR) and data cleaning was required to create this variable. Details are not included due to risk of identification. This variable was mainly derived from parent responses to P3ENROL, P3CARSET, and P3RESPNS in the Spring 2004 Parent Interview.
