TEMPERAMENT SURVEY

Child # 1/100

INSTRUCTIONS:

This scale is designed to tell us more about your child. It consists of 50 statements. You are asked to rate each statement in terms of how well it describes your child.

The ratings consist of five different categories, ranging from completely disagree (1) to completely agree (5). For each statement, please indicate the number (1, 2, 3, 4, 5) which corresponds to the best description of your child. For example, for the statement "My child is tall for his age," you would choose (1) if you completely disagree with this description of your child; you would choose (5) if you completely agree with this description of your child; and you would choose (3) if you are neutral in regard to this description of your child.

In making these ratings, please keep in mind these three points:

1. Make your own rating of the child - not your friend's or relatives.
2. Judge your child in comparison to children his or her age.
3. Rate your child on what he or she has been like recently.

Your ratings are strictly confidential, and are being used as a part of ongoing research at the Frank Porter Graham Child Development Center.

CARD 1-4
ID 5-7
AGE 8-10

| | | COMPLETELY DISAGREE | MILDLY DISAGREE | NEUTRAL | MILDLY AGREE | COMPLETELY AGREE | |
