Explanation

Information was obtained from spring parent interviews to identify a
focal child care setting for each study child. The focal setting is
defined as the child care setting where the child spent a minimum of
5 hours between the hours of 8 a.m. and 6 p.m. Monday through Friday.

Extensive reconciliation with other instruments (teacher survey,
other care provider interview, and TCR) and data cleaning was
required to create this variable. Details are not included due to
risk of identification. This variable was mainly derived from parent
responses to P3ENROL, P3CARSET, and P3RESPNS in the
Spring 2003 Parent Interview.
